Dear Senators Feinstein and Boxer, Congresswoman Sanchez and President Obama:

You want to take away our right to bear arms?

In 1863 a Democrat shot and killed Abraham Lincoln, President of the United States.

In 1983 a registered Democrat shot and wounded Ronald Reagan.

In 2007 a registered Democrat named Seung-Hui Cho shot and killed 32 people in Virginia Tech.

In 2010 a mentally ill registered Democrat named Jared Lee Loughner shot Rep. Gabrielle Giffords and killing 6 others.

In 2011 a registered Democrat named James Holmes went into a movie theater and shot and killed 12 people.

In 2013 a registered Democrat named Adam Lanza shot and killed 26 people in a school.

One could go on, but you get the point, even if the media does not.

Clearly, there is a problem with Democrats and guns.

Guns don't kill people, people kill people and because there are a "few bad guys" just remember how many law abiding American Citizens there are out there whom YOU are supposed to represent!

A pen in the hand of this president is far more dangerous than a gun in the hands of 200 million law-abiding citizens!

And while I'm at it Senator Feinstein, do you not think it's conflict of interest that your husband Richard Blum be involved with any sale of government property?

The US government has entered into a contract with a real estate firm to sell 56 buildings that currently house U.S. Post Offices. The government has decided it no longer needs these buildings, many of which are located on prime land in towns and cities across the country.

The sale of these properties will fetch billions of dollars to the company handling the sales. That company belongs to a man named Richard Blum. Who is Richard Blum? He's the husband of Senator Dianne Feinstein. What's wrong with this picture?

Senator Feinstein and her husband stand to make a fortune. His firm, CRI is the sole real estate company offering these properties for sale. CRI will be making a 6% commission on the sale of each and every one of these postal properties.

All of these properties being sold are all paid for. They were purchased with U.S. taxpayers' dollars, and they are allowed free and clear by the U.S.P.S. The only cost to keep them is the cost to actually keep the doors open and the heat and lights on.

The United States Postal Service doesn't even have to pay property taxes on these properties. Would you sell your house just because you couldn't afford to pay the electric bill?

Well, the Post Office is.

How does a U.S. Senator from San Francisco manage to get away with such a sweet deal? A United States Senator's husband is standing by ready to make millions from a U.S. taxpayer funded enterprise.

No one in the mainstream media is even raising an eyebrow over his 6% commission on the sale of hundreds of millions of dollars' worth of quasi-public assets.

Do you think your family should prosper of the government?
