Subj: USAF Historical Publications

1. A recent brochure describing the historical program of the U.S. Air Force contains a listing of forthcoming publications including: The Air Force in South Asia: Tactical Airlift and Ranch Hand: The United States Air Force and Herbicides in Southeast Asia, 1961-1971.
2. This organization is presently engaged in a study of the U.S. Air Force role <sup>in</sup> ~~and~~ the use of herbicides in Southeast Asia and the effects on the aircrews involved.
3. Both of the identified historical studies appear to be directed toward areas of concern to the study being performed by this organization.
4. Previous inquiry by the Aerospace Medical Division historian, Mr. John W. Bullard, revealed publication dates late this year for each of these studies. Request notification of the possibility of obtaining drafts of these studies (no matter how rough,) for our use.

Per our telecon - Suggest you  
strengthen this so as to overcome the
