Acronym	Full Term	Description	Date Updated
DSS	Decision Support System	The VHA Decision Support System (DSS) is an automated management information system that tracks health care utilization (VHA workload) and assigns an approximate cost to it. Each VA facility has a separate implementation of DSS. The source of DSS data are the VISTA systems at each VA facility. On a quarterly basis, DSS staff at the VA Austin Automation Center extract data from the DSS systems at each facility. After creating additional data fields, they create a series of extracts that cover all VA facilities.
