MEMORANDUM FOR JERRY JENNINGS

FROM: *AY* ALVIN YOUNG

SUBJECT: 1984 Toxicology Forum, and Presentation of
OSTP Carcinogen Document

This is to confirm our discussion that it is appropriate for the OSTP Carcinogen Document to be presented and discussed at the 1984 Annual Toxicology Forum at the Given Institute for Pathobiology 16-19 July 1984 in Aspen, Colorado. The opportunity for such a scientific body to discuss the merits of this document should certainly enhance its acceptance by the scientific community. I have attached a copy of programs for your inspection. As noted six government scientists will participate in this activity and expenses have been provided for the Toxicology Forum. I have reviewed the presentations and I believe they reflect our document and are appropriate for presentation.
