EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF SCIENCE AND TECHNOLOGY POLICY
WASHINGTON, D.C. 20500

February 23, 1984

Dear Ray:

Thank you for the special hospitality shown to me during my February 1, 1984 visit to the Institute. I hope your students and staff enjoyed the exchange as much as I did.

As a follow-up to our conversation, I have enclosed some documents that will be of interest to you.

- Abbreviated package on the results of the Air Force Health Study (RANCH HAND Epidemiologic Study). I presume that George Lathrop will be sending you a copy of the technical report.
- CDC Protocol for Health Studies of Vietnam Veterans.
- A 1969 Technical Report on Use of Herbicides in Southeast Asia.
- OSTP Cancer Document.
- NTP Cancer Document.

The latter two documents on carcinogenesis are in the final review stages and, at least in the case of the OSTP document, will be submitted to the FEDERAL REGISTER in order to solicit public comment.

Since my visit with you, I have had the opportunity to discuss with Seth Eisen your continued interests and concerns in the conduct of the Twin Study. I have encouraged him to pay you a visit in the near future.

Best wishes.

Sincerely,

Alvin Young, Ph.D.
