MEMORANDUM FOR BERNADINE HEALY

FROM:

AL YOUNG 

SUBJECT:

State of New York Expert Panel Meeting  
12-13 August 1985

As discussed with you on 31 July, I have received a letter (attached) from the Department of Health, State of New York, announcing a meeting for August 12-13 of the Expert Panel for the Binghamton State Office Building PCB/Dioxin Episode.

In February 1981, a large electrical transformer fire occurred in the 18-story State Office Building in Binghamton, New York. The intense fire released large quantities of PCBs, dibenzofurans, and dioxins. The State of New York formed an Expert Panel to assist in developing recommendations and in monitoring the clean-up program. I have served on the Panel since its first meeting in April 1981. The meeting in Binghamton on August 12-13 should conclude the program. The State of New York will cover all expenses. I solicit your approval for my participation.
