You are invited to submit a proposal in six copies complete with pricing information in accordance with the enclosed work statement. The Veterans Administration anticipates that the Request for Proposal (RFP) will result in a firm fixed-price contract.

All prospective offerors receiving the RFP, who do not intend to respond by submitting a proposal, are requested to so advise this office by submitting a "no bid" at the very earliest opportunity.

Contractors submitting restrictive data will mark as below:

This restriction does not limit the Government's right to use information contained in such data if it is obtained from another source without restrictions. The data subject to the restriction is contained in Sheets.....".

The Government reserves the right to reject any proposal, at any time after the closing date and to conduct negotiations to the extent the Government deems necessary and appropriate. However, your proposal should be submitted to the most favorable basis as to price, delivery or time for completion and other factors since the Government may elect to make an award without further discussions or negotiations. Proposals submitted in response to the Request for Proposals will not be returned, but will be retained by the Veterans Administration for official record (manuals will be returned to the vendor upon request).

(a) The Contractor furnished cost or pricing data which was not accurate, complete and current as certified in the Contractor's Certificate of Current Cost or Pricing Data;

(b) A subcontractor, pursuant to the clause of this contract entitled "Subcontractor Cost or Pricing Data" or "Subcontractor Cost or Pricing Data - Price Adjustments" or any subcontract clause therein required, furnished cost or pricing data which was not accurate, complete and current as certified in the subcontractor's Certificate of Current Cost or Pricing Data;

(c) A subcontractor or prospective subcontractor furnished cost or pricing data which was required to be accurate, complete and current and to be submitted to support a subcontract cost estimate furnished by the Contractor but which was not accurate, complete and current as of the date certified in the Contractor's Certificate of Current Cost or Pricing Data; or

(d) The Contractor or a subcontractor or prospective subcontractor furnished any data, not within (a), (b) or (c) above, which was not accurate as submitted; the price or cost shall be reduced accordingly and the contract shall be modified in writing as may be necessary to reflect such reduction. However, any reduction in the contract price due to defective subcontract data of a prospective subcontractor when the subcontract was not subsequently awarded to such subcontractor, will be limited to the amount (plus applicable overhead and profit markup) by which the actual subcontract, or actual cost to the Contractor if there was no subcontract, was less than the prospective subcontract cost estimate submitted by the Contractor; Provided, the actual subcontract price was not affected by defective cost or pricing data.

(NOTE: Since the contract is subject to reduction under this clause by reason of defective cost or pricing data submitted in connection with certain subcontracts, it is expected that the Contractor may wish to include a clause in each such subcontract requiring the subcontractor to appropriately indemnify the Contractor. It is also expected that any subcontractor subject to such indemnification will generally require substantially similar indemnification for defective cost or pricing data required to be submitted by his lower tier subcontractors.)

AUDIT

(a) General. The Contracting Officer or his representatives shall have the audit and inspection rights described in the applicable paragraphs (b), (c) and (d) below.

(b) Examination of costs. If this is a cost-reimbursement type, incentive, time and materials, labor hour or price redeterminable contract, or any combination thereof, the Contractor shall maintain, and the Contracting Officer or his representatives shall have the right to examine books, records, documents, and other evidence and accounting procedures and practices, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. Such right of examination shall include inspection at all reasonable times of the Contractor's plants, or such parts thereof, as may be engaged in the performance of this contract.

(c) Cost or pricing data. If the Contractor submitted cost or pricing data in connection with the pricing of this contract or any change or modification thereto, unless such pricing was based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, the Contracting Officer or his representatives who are employees of the United States Government shall have the right to examine all books, records, documents and other data of the Contractor related to the negotiation, pricing or performance of such contract, change or modification, for the purpose of evaluating the accuracy, completeness and currency of the cost or pricing data submitted. Additionally, in the case of pricing any change of modification exceeding \$100,000 to formally advertised contracts, the Comptroller General of the United States or his representatives who are employees of the United States Government shall have such rights. The right of examination shall extend to all documents necessary to permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used therein.

(d) Availability. The materials described in (b) and (c) above shall be made available at the office of the Contractor, at all reasonable times, for inspection, audit or reproduction, until the expiration of 3 years from the date of final payment under this contract or such lesser time specified in Part 1-20 of the Federal Procurement Regulations (41 CFR Part 1-20) and for such longer period, if any, as is required by applicable statute, or by other clauses of this contract, or by (1) and (2) below:

(1) If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for a period of 3 years from the date of any resulting final settlement.

(2) Records which relate to appeals under the "Disputes" clause of this contract, or litigation or the settlement of claims arising out of the performance of this contract, shall be made available until such

appeals, litigation, or claims have been disposed of.

(e) The Contractor shall insert a clause, including this paragraph (e), in all subcontracts hereunder except altered as necessary for proper identification of the contracting parties and the Contracting Officer under the Government prime contract.

KEY PERSONNEL

The personnel specified in an attachment to this contract are considered to be essential to the work being performed hereunder. Prior to diverting any of the specified individuals to other programs, the Contractor shall notify the Contracting Officer reasonably in advance and shall submit justification (including proposed substitutions) in sufficient detail to permit evaluation of the impact on the program. No diversion shall be made by the Contractor without the written consent of the Contracting Officer: Provided, That the Contracting Officer may ratify in writing such diversion and such ratification shall constitute the consent of the Contracting Officer required by this clause. The attachment to this contract may be amended from time to time during the course of the contract to either add or delete personnel, as appropriate.

UTILIZATION OF LABOR SURPLUS AREA CONCERNS

(The following clause is applicable if this contract exceeds \$10,000.)

(a) It is the policy of the Government to award contracts to labor surplus area concerns that agree to perform substantially in labor surplus areas, where this can be done consistent with the efficient performance of the contract and at prices no higher than are obtainable elsewhere. The Contractor agrees to use his best efforts to place his subcontracts in accordance with this policy.

(b) In complying with paragraph (a) of this clause and with paragraph (b) of the clause of this contract entitled "Utilization of Small Business Concerns," the Contractor in placing his subcontracts shall observe the following order of preference: (1) Small business concerns that are labor surplus area concerns, (2) other small business concerns, and (3) other labor surplus area concerns.

(c)(1) The term "labor surplus area" means a geographical area identified by the Department of Labor as an area of concentrated unemployment or underemployment or an area of labor surplus.

(2) The term "labor surplus area concern" means a concern that together with its first-tier subcontractors will perform substantially in labor surplus areas.

(3) The term "perform substantially in a labor surplus area" means that the costs incurred on account of manufacturings, production, or appropriate services in labor surplus areas exceed 50 percent of the contract price.

**COST ACCOUNTING STANDARDS
CERTIFICATION - NONDEFENSE APPLICABILITY**

Any negotiated contract in excess of \$100,000 resulting from this solicitation shall be subject to the requirements of the clauses entitled Cost Accounting Standards - Nondefense Contract (FPR § 1-3.1204-2(a)) and Administration of Cost Accounting Standards (FPR § 1-3.1204-1(b)) if it is awarded to a contractor's business unit that is performing a national defense contract or subcontract which is subject to cost accounting standards pursuant to 4 CFR 331 at the time of award, except contracts which are otherwise exempt (see FPR § 1-3.1203-2(a) and (c)(4)). Otherwise, an award resulting from this solicitation shall be subject to the requirements of the clauses entitled Consistency of Cost Accounting Practices - Nondefense Contract (FPR § 1-3.1204-2(h)) and Administration of Cost Accounting Standards (FPR § 1-3.1204-1(b)) if the award is (i) the first negotiated contract over \$500,000 in the event the award is to a contractor's business unit that is not performing under any CAS covered national defense or nondefense contract or subcontract, or (ii) a negotiated contract over \$100,000 in the event the award is to a contractor's business unit that is performing under any CAS covered national defense or non-defense contract or subcontract, except contracts which are otherwise exempt (see FPR § 1-3.1203-2(a) and (c)(4)). This solicitation notice is not applicable to small business concerns.

CERTIFICATE OF CAS APPLICABILITY

The offeror hereby certifies that:

B It is currently performing a negotiated national defense or nondefense contract or subcontract that contains a cost accounting standards clause required by 4 CFR 331 or 332 or by FPR Subpart 1-3.12, but it is not required to accept the 4 CFR 331 clause in new negotiated national defense contracts or subcontracts which it receives that are subject to cost accounting standards.

C It is not performing any CAS covered national defense or nondefense contract or subcontract. The offeror further certifies that it will immediately notify the contracting officer in writing in the event that it is awarded any negotiated national defense or nondefense contract or subcontract containing any cost accounting standards clause subsequent to the date of this certificate but prior to the date of the award of a contract resulting from this solicitation.

E It is a State or local government receiving contract awards subject to FPR Subpart 1-15.7 (FAC 74-4, OMB Circular A-87).

F It is a hospital.

NOTE: Certain firm fixed price negotiated nondefense contracts awarded on the basis of price competition may be determined by the Contracting Officer (at the time of award) to be exempt from cost accounting standards (FPR § 1-3.1203-2(c)(4)(iv)).

ADDITIONAL CERTIFICATION - CAS APPLICABLE OFFERORS

G The offeror, subject to cost accounting standards but not certifying under D, E, or F above, further certifies that practices used in estimating costs in pricing this proposal are consistent with the practices disclosed in the Disclosure Statement(s) where they have been submitted pursuant to CASB regulations (4 CFR 351).

SOLICITATION PROVISIONS: FAIR AND EQUITABLE
COMPENSATION TO PROFESSIONAL EMPLOYEES

NOTICE TO OFFERORS

NOTE THE SOLICITATION PROVISIONS RELATING TO FAIR AND EQUITABLE COMPENSATION TO PROFESSIONAL EMPLOYEES SET FORTH ELSEWHERE IN THIS SOLICITATION. FAILURE TO COMPLY WITH THESE PROVISIONS MAY CONSTITUTE SUFFICIENT CAUSE TO JUSTIFY NONSELECTION OF A PROPOSAL. THE TOTAL COMPENSATION PLAN REQUIRED TO BE SUBMITTED BY THE OFFEROR WILL BE VIEWED AS BEING WITHIN THE PURVIEW OF PUBLIC LAW 87-653 (FPR § 1-3.807-3).

INSTRUCTIONS TO OFFERORS.

(a) Total compensation (salary and fringe benefits) of professional employees under service contracts may, in some cases, be lowered by recompetition of these contracts. Lowering of compensation can be detrimental in obtaining the necessary quality of professional services needed for adequate performance of service contracts. It is, therefore, in the best interest of the Government that professional employees, as defined in 29 CFR 541, be properly and fairly compensated in these contracts. As a part of their proposals, offerors will submit a "Total Compensation Plan" (salaries and fringe benefits) for these professional employees for evaluation purposes.

(b) The Government will evaluate the Total Compensation Plan to ensure that this compensation reflects a sound management approach and an understanding of the requirements to be performed. It will include an assessment of the offeror's ability to provide uninterrupted work of high quality. The total compensation proposed will be evaluated in terms of enhancing recruitment and retention of personnel and its

realism and consistency with a total plan for compensation (both salaries and fringe benefits).

(c) Criteria for evaluation, therefore, will include an assessment of the Total Compensation Plan submitted by each offeror.

EVALUATION CRITERIA

(a) Total Compensation Plan (Professional Employees). In establishing compensation levels for professional employees, the total compensation (both salaries and fringe benefits) proposed shall reflect a clear understanding of the requirements of the work to be accomplished and the suitability of the proposed compensation structure to obtain and retain qualified personnel to meet mission objectives. The salary rates or ranges must recognize the distinct differences in professional skills and the complexity of varied disciplines as well as job difficulty. Proposals offering total compensation levels less than currently being paid by the predecessor contractor for the same work will be evaluated, in addition to the above, on the basis of maintaining program continuity, uninterrupted work of high quality, and availability of required competent professional employees. Offerors are cautioned that instances of lowered compensation for essentially the same professional work may be considered a lack of sound management judgment in addition to indicating a lack of understanding of the requirement.

(b) Cost (Professional Compensation). Proposals which are unrealistically low or do not reflect a reasonable relationship of compensation to the professional job categories so as to impair the contractor's ability to recruit and retain competent professional employees, may be viewed as reflecting a failure to comprehend the complexity of the contract requirements. The Government is concerned with the quality and stability of the work force to be employed on this contract. The compensation data required will be used in evaluation of the offeror's understanding of the contract requirements.

(c) Other (Labor Relations). An assessment of the potential for adverse effect upon performance and maintenance of the required number of professional employees with requisite skills resulting from an unrealistically low compensation structure will also be made.

EPIDEMIOLOGY CONTRACT

STATEMENT OF WORK

The contractor will be required to develop the design for a comprehensive epidemiological study of subjects who shall be persons who, while serving in the Armed Forces of the United States during the period of the Vietnam conflict were exposed to dioxins produced during the manufacture of various phenoxy herbicides (including "Agent Orange"). The design will include detailed methods for analysis and interpretation of the data obtained during the study.

In addition to providing the study design, the contractor will be expected to provide prompt justified modifications in the study's protocol in response to the several scientific or other bodies that will review it.

Once the study has commenced, the contractor will be expected to consult with the responsible officials of the Veterans Administration on the progress of the investigation in order to assure that the objectives of the study design are being met. The epidemiological study itself will be conducted by the VA, including examination of the subjects and data collection, according to the design of the contractor.

DESCRIPTION OF GOODS AND SERVICES SOLICITED

The contractor will have to deliver a detailed satisfactory protocol for a comprehensive epidemiological study of phenoxy herbicides, specifically Herbicide Orange, as used in Viet Nam. The following work will be required.

DESIGN OF THE PROTOCOL FOR THE AGENT ORANGE EPIDEMIOLOGICAL STUDY

The protocol should provide the following:

- A research design for an epidemiological study of the long-term on delayed health effects of phenoxy herbicides on subjects including plans to identify and evaluate possible significant dependent variables and to relate the independent and dependent variables. The approach should be meticulously justified through reference to the world literature and other relevant information.
- The variables chosen for study should include organ systems theoretically most often affected by exposure to the chemicals in Herbicide Orange (e.g., liver, kidney, skin, and nervous system). For each of these organ systems, the contractor will be expected to specify the data to be obtained from medical history, physical examination, and laboratory testing in order to identify and evaluate the dependent variables, i.e., the evidence of adverse effects of Herbicide Orange. The reasons for specifying each procedure must be clearly delineated by the contractor.

- The contractor will recommend the level of certainty that the study should reach in concluding that specific effects are or are not due to the phenoxy herbicides and/or their contaminants.
- The numbers of study subjects and control populations required for successful completion of the study must be estimated by the contractor and the mechanism by which individual subjects and controls are to be chosen must be specified. The contractor will be expected to adapt the estimates of size of the study and control samples and their method of selection to the realistic constraints of facilities, staff and time under which the study must be conducted. The latter will be defined during protocol development by close collaboration with the VA contracting officer's technical representative.
- The contractor will be expected to present a method for evaluating regularly the quality of the data gathered during the study so as to ensure prompt detection and correction of defects in the quality of data collection.
- The contractor will contribute to the development of training materials for instruction of the VA health care professionals who will collect the data. These contributions will include but not be restricted to lists of appropriate references from the scientific literature and written descriptions of the preferred approaches to data collection and of the pitfalls to be avoided.

ANALYSIS OF THE STUDY DATA

- The contractor will present a detailed description of the statistical methods that will be used to analyze the study's data, and the rationale behind the choice of these methods.
- The contractor will develop data collection forms on which the participating health care professionals will report the required data. These forms will be accompanied by any necessary explanations and instructions for their proper completion.
- Directions will also be prepared to specify how the study's data are to be coded and entered into a computer for analysis. Computer programs for this analysis will be specified and, if necessary, provided. These materials are to be utilized by the VA to instruct its statistical and computational staff in proper procedures for processing the study's data.

LENGTH AND SEQUENCE OF THE STUDY

- The contractor will estimate how long it will take to complete the epidemiological study in order to achieve its goals.
- The contractor must prepare a timetable that indicates the significant milestones in the study and the dates by which they are completed.

EVALUATION CRITERIA

General

The procedure for developing a protocol is the most important consideration in the award of the contract and must give evidence that it will assure scientific accuracy and completeness, will be capable of prompt execution by the VA, and will lead to specific answers to the question of the phenoxy herbicides' effects on human health. The principal investigator(s) under the contract must be individual(s) with outstanding epidemiological qualifications and with ready access to expert consultants possessing the multiple types of expertise required for the design of the study. In view of the sensitive nature of this study, the contractor should not have been associated with a prior publicized position regarding the effects of phenoxy herbicides and/or their constituents on human health.

The specific factors to be utilized in the evaluation of this particular project are shown below.

FACTORS THAT WILL BE USED TO EVALUATE THE PROPOSAL

1. Scientific Validity and Relevance of the Suggested Method for Designing the Project.....40 points
 - a. the proposal should indicate a thorough appreciation of the scientific difficulties associated with the design of the specific epidemiological study and should suggest definitive approaches to dealing with these difficulties. Consideration must be given to the selection of study and control populations, to the estimation of the extent of exposure to phenoxy herbicides, specifically Orange; to determination of medical conditions that will be especially sought; and to selection of definitive methods for identifying them. The proposed design must be practicable within the existing facilities of the VA, must be flexible enough to recognize unexpected findings and, if appropriate, to allow a revised study design.
 - b. The suggested methods for data analysis must give evidence that they will be statistically sound, will provide assurance that differences between study and control groups are statistically significant or that there are no discernable differences between the groups within confidence limits defined before the study begins.
 - c. An estimate of the total time required to complete the epidemiological study must be included. It must be realistically based on a sound project design.

2. Contractor's Scientific Qualifications.....30 points

The contractor must be a professional epidemiologist who is recognized as an individual of outstanding scientific reputation.

This reputation must be evidenced by the contractor's curriculum vitae and bibliography which should contain major epidemiological studies published in the leading scientific journals. Specific reference should be made to similar contract studies in which the contractor was involved.

3. Contractor's Facilities.....30 points

- a. The contractor must be able to obtain prompt and expert advice and assistance in the varied disciplines of basic science environmental studies, clinical medicine, and statistics as may be necessary to complete the contract. The quality of such consultants will be considered of prime importance, as judged by their records of experience and professional positions. A general statement from a responsible official as to the availability of such technical assistance where it can be supplied by the staff of an institution can be included. If subcontracts or paid consultantships are to be used, the professionals or subcontractors must provide assurance in writing of their qualifications and availability.
- b. The contractor must give assurance that other specific facilities, including clerical staff, necessary to fulfil this contract will be available.

METHOD OF AWARD

- A. The Veterans Administration intends to award a fixed-price contract
- B. The award will be made to the bidder with the lowest bid price and with an evaluation score of 80,00 points or better.

PRE-BID CONFERENCE

The Veterans Administration will conduct a pre-bid conference on April 11, 1980 at 9:00AM local time in Room 119, Veterans Administration Central Office, 810 Vermont Ave., NW, Washington, DC 20420. All potential bidders are invited to attend. V.A. personnel will be available to answer any questions pertaining to RFP 101(134C)-8-80.
