MEMORANDUM FOR AOWG SCIENCE SUBPANEL ON EXPOSURE ASSESSMENT

FROM: AL YOUNG *Al Young*

SUBJECT: Recap of Action from 10 April 1986 Meeting

1. My thanks to all of you for your continued commitment to this difficult and important scientific task.

2. Recap of Requested Action:

M. Fingerhut - Prepare a brief statement summarizing your review of the human epidemiologic data on the phenoxy herbicides and 2,3,7,8-TCDD. Identify any useful relationships between the magnitude of chemical exposures and health outcomes. Especially identify any relationships between magnitude of exposure to dioxin and the appearance of chloracne.

H. Kang and D. Barnes - Combine efforts to produce a report on the risk assessments for 2,3,7,8-TCDD; 2,4-D; 2,4,5-T; picloram; and cacodylic acid. For TCDD and components of Agent Orange, try to list assumptions and justify your decisions. Compare risk assessments with probable scenarios for exposure in Vietnam.

P. Layde - Prepare a table of the number of perimeter applications to include Corps, herbicide, application method and years. Coordinate table with R. Christian.

J. Murray - Prepare a brief assessment of perimeter applications including likelihood of incomplete records on number of applications. Please cover any information on unit(s) responsible for planning and applying the herbicides and what problems would likely enhance or decrease exposure of base personnel; e.g., distance of outer perimeters to unit barracks.

- J. Bricker - Continue to refine document on "Agent Orange Exposure Probability Modeling for Vietnam Field Conditions." Prepare abort data in format with other exposure scenarios. (Coordinate this task with Kang.)
 - B. Shepard - Send comments on Blair draft prior to your trip of 21 April.
 - C. Keller - Prepare separate draft outlines on a proposed
& A. Young structure for the subpanel report.
3. I will call HHS and see if I can arrange a short briefing to our panel on the CDC/St. Louis University Study on the Quail Run Population to be released 18 April.
 4. Our next meeting will be Monday, 21 April 1986, 1:00-3:30 p.m., Room 5026, NEOB. I would also propose that the following meeting be held on Friday, 2 May in the same location and at the same time.
