DEPARTMENT OF THE AIR FORCE
AIR FORCE RESERVE COMMAND

MEMORANDUM FOR 439 AW/CC

1 June 2011

FROM: HQ AFRC/HO
255 Richard Ray Blvd
Robins AFB GA 31098-1661

SUBJECT: Freedom of Information Act Request for 731st Tactical Airlift Squadron C-123 Tail Numbers and Flying Hour data from 1973 to 1981.

1. The Headquarters Air Force Reserve Command Directorate of Historical Services received a Freedom of Information Act request on 23 May 2011. The FOIA, forwarded from MSgt Joseph Gluckert, 439th Airlift Wing/HO, requested the tail numbers and flying hours of all C-123 aircraft flown by the 731st Tactical Airlift Squadron, Westover AFB, Massachusetts, from 1973 to 1981. The FOIA was initially submitted by Major (retired) Wesley T. Carter. Major Carter requested the tail numbers and flying hour data to support his contention that he developed cancer because of exposure to dioxins and toxins embedded in the C-123 aircraft flown by the 731 TAS. Major Carter also requested data regarding any attempts to identify or remove suspected contaminants or hazardous materials from the Air Force Reserve's C-123 fleet. The C-123 aircraft in the 731 TAS fleet had been used to disperse chemical defoliants over Southeast Asia during the Vietnam War.

2. Regarding the FOIA request, AFRC/HO performed a search of its holdings and ascertained both the total flying hours per reporting period and the tail numbers of all C-123 aircraft flown by the 731 TAS. Total flying hours per aircraft was not available because the 439 TAW did not report those numbers in its histories during the 1973-1981 period. No records addressing the identification and removal of contaminants or hazardous materials in the 731 TAS's C-123 fleet were found in the HQ AFRC/HO archives.

4. Please contact Mr. Paul Larson, HQ AFRC/HO, at 478-327-2383 or DSN: 497-2383 if you have any additional questions or concerns regarding Mr. Carter's FOIA request.

BETTY R. KENNEDY
Director of Historical Services
