## Registry of Brain Banks

This web page lists brain banks throughout the world.

Information listed below was either submitted individually by the specific brain bank, or extracted from available publications. INTBBN is not responsible for verifying the veracity of submitted data.

This list of banks is far from being complete and will be gradually updated. If you have any comments or current information about the brain banks please contact [webmaster@intbbn.org](mailto:webmaster@intbbn.org).

ABBN number underneath each bank is a network code number of the American Brain Banking Network used as a prefix for individual case identification.
