Volume 8, Issue 38

This-N-That

Veteran Suicide is still an extremely critical issue today! For so long it's been said that 22 per day commit suicide. But this number is only those that are being reported to the VA.

So just like unemployment numbers only reflect those who are on the unemployment rolls and do not account for the under employed or non-employed, suicides are only based on what is reported.

Personally, just from talking to Veterans, families, and friends of Veterans I very strongly feel this number is at minimum double.

And we all need to be mindful of all the signs of someone in distress, and what each of us can do to help stop, and prevent any more.

There are two places further down in this newsletter where you can find telephone numbers, so I urge you to write them down, keep a copy by your phone, and maybe even carry a copy in your wallet or purse,

so on the off chance you're visiting a Veteran or a Veteran and family and you notice something, you will be partially prepared to help.

Triggers, well there are seriously so many and each person is different. For some it can be as simple as a smell, others a color, and yet others a sound or light. It's just really hard to pinpoint. I know from many accounts I have been told, even a car back firing and fireworks are another trigger. Maybe not the sound, maybe not the viewing of it, but the smell of gun powder.

So please, be prepared, be willing to step up, together we can help reduce the number of our heroes committing suicide.

I know this is rather simplistic at best, but suicide is a permanent solution to a temporary problem.

Homeless Veterans are once again in some news pieces here in California.

For many months we had an encampment right alongside the 57 freeway in Anaheim.

It started off relatively small, maybe 10-15 people, but soon quickly grew to nearly a 1/4 of a mile long and over 100. And just before Christmas last year the city of Anaheim herded them all out, filled the area with huge mounds of dirt making it impossible for them to come back.

Now Anaheim is at it again!

The majority of those they had herded out move to another location and it too grew rapidly, and of course now residents are all up in arms with the typical attitude of "not in my neighborhood!"

It won't be long before the city of Anaheim will be saying they've resolved the problem, when in fact all they've done was run them out of town and forcing them on some other city and making it their problem, and the actions will simply be repeated in what ever city ends

up being the recipient of these homeless Veterans.

So, once again I am asking you to please use the numbers posted further down, call on your reps and Senators in DC and DEMAND they do something positive and take immediate action to resolve the homeless Veteran problem.

For all those who wore the uniform, served our country with Pride and Honor, this is NOT how we should be treating them

I'd also like to ask all our readers to send a message to President Trump and politely ask him to seriously tell Secretary Shulkin to not close leases and sell off any VA property or land and spend the money to convert to small apartments for our homeless Veterans! You can do so by clicking [HERE](#).

On behalf of our Volunteers nationwide and myself, we wish you and your family good health!

Respectfully,

Jim Davis

**Legal "Fist Fight" Over Transgender
Ban Expected**

Both opponents and supporters of President Trump's ban on transgender personnel in the military might agree that his abrupt policy shift was handled clumsily, even cruelly, considering that it targets individuals serving the nation honorably and with a special kind of courage that minority status often demands. But transgender personnel can expect a "fistfight" in federal court as they seek to reverse the ban, arguing it violates their constitutional rights to due process and equal justice, said attorney Eugene R. Fidell, who has decades of experience with military personnel legal issues and teaches military law at Yale Law School.

Can the VA Process Claims in 30 Days?

The VA announced their new Decision Ready Claim (DRC) initiative which they say promises to deliver faster disability claim decisions to veterans. In fact, their press release says that "veterans who choose to submit their claim under DRC can expect to receive a decision within 30 days from the time VA receives the claim." To those who waited months or years for the VA to make a decision on a disability claim this sounds too good to be true. **Check out the details to see if this is as good as it sounds.**

Veterans and Vaccines

There are two main vaccines recommended for all adults. These are the seasonal flu vaccine and the Tdap (tetanus, diphtheria and pertussis, also known as whooping cough) followed by a Td (tetanus and diphtheria) booster every 10 years. Other vaccines include the Pneumococcal vaccine (65 years and older) to protect against pneumonia and the Zoster vaccine (60 years and older) to protect against shingles. Also, the HPV vaccine can protect against the human papillomavirus. Take a quiz on the [CDC website](#) to find out which vaccines you may benefit from.

At the bottom, the text "You can help." is written in white, sans-serif font.

If you're thinking about suicide, are worried about a friend or loved one, or would like emotional support, the Lifeline network is available 24/7 across the United States. Call the National Suicide Prevention Lifeline at 800-273-TALK (800-273-8255) to reach a trained counselor. Use that same number and press "1" to reach the Veterans Crisis Line.
