Title 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

[CGFR 66-69]

SUBCHAPTER B—MERCHANT MARINE OFFICERS AND SEAMEN

APPRENTICE ENGINEERS

A notice of proposed rule making regarding apprentice engineers and recognition of apprentice engineer programs was published in the FEDERAL REGISTER of September 3, 1966 (31 F.R. 11665), and a Coast Guard announcement dated September 6, 1966, and written comments with respect thereto were requested. In a Coast Guard announcement dated October 26, 1966, and a notice published in the FEDERAL REGISTER of October 29, 1966 (31 F.R. 13916), notification was given regarding a public hearing on these proposals. The Merchant Marine Council held a public hearing in Washington on November 22, 1966. After consideration of the oral and written comments submitted, the Merchant Marine Council unanimously recommended approval of the proposals as set forth in the notice of proposed rule making published in the FEDERAL REGISTER on September 3, 1966, and distributed with the Coast Guard announcements of September 6, and October 26, 1966.

After reviewing the proposals regarding apprentice engineers and considering the unanimous recommendation of the Merchant Marine Council together with the public hearing record and comments received, I hereby approve these proposals which will establish a seaman's rating as apprentice engineer, permit recognition of training programs for prospective third assistant engineers, and the acceptance of the completion of approved training programs as qualifying experience for an original license as a third assistant engineer. The amendments in this document will add another method to those already provided in 46 CFR 10.10-21 for applicants to qualify for an original license as third assistant engineer of steam vessels. It is noted that, in a number of comments submitted, concern was expressed over the method of employment of apprentice engineers on board merchant vessels. The rating of apprentice engineer will not be required by certificates of inspection issued by the Coast Guard. If the owner, operator, agent, or master of a vessel requests that the manning include an apprentice engineer, a seaman holding such endorsement may be signed on the shipping articles.

By virtue of the authority vested in me as Commandant, U.S. Coast Guard, by section 632 of Title 14, U.S. Code, and Treasury Department Order 120, dated July 31, 1950 (15 F.R. 6521), and others specifically listed with the various amendments to the regulations below, the following amendments are prescribed and shall be effective on date of publication in the FEDERAL REGISTER:
