

Veterans-For-Change Newsletter

A Voice of the Veterans

Week Ending Sunday, June 06, 2021

Volume 12, Issue 23

This-N-That

Good afternoon Jim,

We're still working on gathering information in a couple areas of concern, and we're reaching out again for any Veterans or family members who might be able to assist with any information, or direct experiences you have encountered.

The first area of concern pertains to any Veterans who had their benefits stopped based on accusations of fraud. You might have only received

a letter from the VA informing you benefits were being stopped and maybe no reason at all, or a vague reason is offered.

We don't want anyone's personal information, and what is provided will be kept confidential.

The second area of concern pertains to any Veteran who has been awarded benefits and care for any mental health issue, and you have been assigned to someone in the VA but the distance is quite a bit and you may have asked to be seen by a private doctor or clinic that is closer to your home and were denied.

Some are being told no, and no reason offered, or you may have been told no as there was no budget money available for outside services, or any other reason they may have offered.

Again, we don't want anyone's personal information, and again, what ever is provided will be kept confidential.

Your help in either area of concern will be immensely appreciated.

I've been a little slow at prepping more new

documents to get uploaded, but I am working on that. My mail back-log for new weblinks was huge, so I did work on that a couple of weeks ago and 60+ new weblinks have been installed.

I will be contacting our webmaster this weekend to find out if we have a publish date set so I can let you know if we're going to make it this month, or if we need to push it.

We've been working very closely with Military-Veteran's Advocacy for a long time now, and they need more members in order to apply to be considered nationally recognized. They also have a rifle raffle also noted in this newsletter that the drawing date is coming up.

But do give both a thought, maybe subscribe or get a raffle ticket, or both! I know they would appreciate it as I would too!

This newsletter again is packed with all kinds of information some will help some, others will help all, and some may not pertain to you, but do take the time to review everything.

I know we're getting more information for women Veterans and this is a good sign, and hopefully

those who are using the VA Healthcare System are being treated well, getting the care needed and you're able to move forward in your life.

On the chance you are not, please do contact me and let me know what area(s) we might need to work on for you.

We're still looking for someone who knows a lot about or was trained regarding FMA. We've not needed anyone for a long time when it comes to FMA, but once again we're in need of someone who specialized in FMA services and benefits for a Veteran, ASAP. Please do contact me via E-Mail if you'd be so kind enough to assist.

If you've not visited our website, www.veterans-for-change.org or not visited in a while, please be sure to check often for updates on documents, web links, etc., we are a bit slow, but are moving as fast as we can, yet not over-loading to put more work on our Webmaster when we get to the transition into the new look.

On behalf of our Volunteers nationwide and myself, we wish you and your family good health!

Respectfully,

Jim Davis

Founder

Military-Veterans Advocacy's 3rd Annual Rifle Raffle

Military-Veterans Advocacy's 3rd annual rifle raffle continues to be a

hit, with a little over a month to go, has sold half of the 300 tickets printed, Last year we ran out of tickets prior to the drawing and this year the tickets are going fast. Our first prize this year, the Springfield M1A1 rifle is a collector's item as well as a fully functional firearm., Many of you carried that rifle in boot camp so there is a sentimental reason for the quick pace of ticket sales. Our second prize, the Smith and Wesson Model 686 7-shot revolver is also beautifully tooled and will be the envy of everyone at the range, And of course our third prize \$250. cash will always come in handy.

So please feel free to jump on our web site at <https://www.militaryveteransadvocacy.org/rifle-affle.html> and purchase a ticket or tickets. And while you are on the website, if you are not a member please consider joining. Membership is \$25 per year.

Life memberships are also available https://www.militaryveteransadvocacy.org/store/c2/early_dues. We have gift memberships for those who are having financial concerns. For more information contact robin.barr@mvadvocacy.org.

Drawing is June 26, you do not have to be present to win, but you must comply with all federal and

state firearms laws. Tickets are \$45 apiece! We accept Master Card, American Express and Discover.

Please help our volunteer staff continue to litigate, legislate and educate on your behalf.

Commander J. B. Wells U. S. Navy (Retired)
Attorney at Law
Chairman

FY2022 Administration's Budget Provides Big Boost to VA

President Biden recently submitted his Administration's budget for FY2022 that begins Oct. 1, 2022. The budget increases defense spending by 1.6 percent. The proposal does not include any new TRICARE fee increases and allows for an active duty pay increase of 2.7 percent that keeps pace with civilian pay increases. The measure increases funding for mental health and sexual assault prevention. The proposed budget reduces Navy and Marine Corps active-duty end strength by 1,600 and 2,700, respectively. "The President's Defense Budget Request is an outline and a starting point,"

emphasizes Sen. Jack Reed (R.I.), Chairman of the Senate Armed Services Committee.

The Administration has requested a 10 percent increase for the Department of Veterans Affairs (VA). The budget provides approximately \$1.4 billion, an increase of \$350 million for the Caregiver Support Program. Through this program the Veterans Health Administration provides support to individuals who act as caregivers for severely disabled veterans. The 2022 budget supports the phased expansion of the Program of Comprehensive Assistance for Family Caregivers to include all eligible veterans, no matter when they served. The original Caregiver Program was limited to veterans that were disabled after Sept. 11, 2001.

The budget includes \$2.2 billion in funding for veteran homelessness programs. Additionally, the budget includes \$598 million for veteran's suicide prevention outreach programs that address the risks for suicide, with the goal of intervening before a veteran reaches a point of crisis.

Congress wants to rapidly rush through the budgeting and appropriations process this summer, partly because Biden's budget is coming late, even compared to previous newly elected presidents.

Negotiators may rely on a stopgap funding measure (Continuing Resolution) to avoid a shutdown after the Sept. 30 deadline to enact funding for the government.

Robotic pets provide comfort for hospital residents

Know the Warning Signs

It Matters.

Sometimes, a crisis may involve thoughts of suicide. Learn to recognize these warning signs:

- Hopelessness, feeling like there's no way out
- Anxiety, agitation, sleeplessness, or mood swings
- Feeling like there is no reason to live
- Rage or anger
- Engaging in risky activities without thinking
- Increasing alcohol or drug abuse
- Withdrawing from family and friends

The presence of the following signs requires immediate attention:

- Thinking about hurting or killing themselves
- Looking for ways to kill themselves
- Talking about death, dying or suicide
- Self-destructive behavior such as drug abuse

[Veterans-For-Change Website](#)

The Veterans-For-Change website has been around since 2009, We've been around since May 2006. The looks pretty much stay the same for now, but in the background our new webmaster has been working on a whole new look and feel, a facelift so-

to-speak. And we're sincerely hoping to roll out the new website sometime this coming June.

Constant improvement and change are being done to make our website the most user friendly "**One-Stop-Shop**" website to find almost everything you might have tried to find searching the internet.

Almost a hundred people have been involved; collecting web links to documents now houses on the VFC website, collecting thousands of web links for various issues, illnesses and benefits. Creating forums for all eras of service and two forums one just for men and one just for woman where you can go question, comment, share medical and personal concerns, whatever you'd like it to be.

We also have a forum with for Mental Health and are currently seeking a new Licensed Mental Health Worker, where you can seek help or just ask questions.

We average **2,948** hits per day, and downloads average **4,717** per day with a total **7,421,634** visitors as of Saturday evening.

If you subscribe you will have full access to the entire website and best of all it's **FREE of**

CHARGE! You just need a valid E-mail address so the system can send us a notification to approve your account. Once received, and we approve, the system will send you an E-Mail letting you know your account has been approved. Be sure to check your junk and spam folders just in case you don't receive it in your In-Box.

HVAC Member Day Includes Concurrent Receipt

The House Veterans Affairs Committee invited all members to come speak about their priorities for veterans. These events give lawmakers who do not sit on the committee an opportunity to officially request legislative actions. This hearing allowed 22 Representatives to come before the committee and make their case for legislation. Although concurrent receipt is not under the jurisdiction of the House Veterans Affairs Committee, Rep. Gus Bilirakis (Fla.) discussed the urgent need to pass concurrent

receipt reform. Bilirakis introduced the "Retired Pay Restoration Act" (H.R.303) that would extend Concurrent Retirement and Disability Payments (CRDP) eligibility to retirees rated less than 50 percent disabled, and more recently introduced the "Major Richard Star Act" (H.R.1282) that expands concurrent receipt to include Combat Related Special Compensation (CRSC) beneficiaries who are medically retired with less than 20 years of service. Bilirakis noted he will soon file legislation to provide dental care to veterans with diabetes, through a four-year pilot program. He also added his voice to those calling for toxic exposure improvements.

Everyone is strongly urged to weigh in on the concurrent receipt issue by going to the [FRA Action Center](#).

HAC-Def Discusses FY2022 Defense Budget

The House Appropriations, Defense Subcommittee held a hearing on the FY2022 Defense appropriations. The FRA provided a letter to the Subcommittee Chairwoman Betty McCollum (Minn.) and Ranking Member Ken Calvert (Calif.) in conjunction with the hearing. The correspondence urged the subcommittee to adequately fund the Defense Health Agency without the need to further increase TRCARE fees and to implement the Electronic Health Record (EHR). The correspondence urged HAC-Def to increase funding for military housing and Childcare Development Centers (CDC). A copy of the correspondence is available on the FRA website.

VFW & Humana Team Up with Feeding America

The VFW and Humana have teamed up with Feeding America to kick off the 2021 “Uniting to Combat Hunger” campaign. The campaign was created in 2018 to raise awareness of food insecurity that affects 1 in 8 people in America, and 1 in 4 Iraq and Afghanistan War veterans. The goal is to provide at least 1 million meals to communities in need. “The past year has been increasingly difficult for our military and veteran families, and even more desperate for those already fighting to put food on the table,” said VFW National Commander Hal Roesch. “It is unbearable to think our brave servicemen and women who have sacrificed so much already in service to their nation, would struggle to find their next meal. Together with Humana and Feeding America, I know we can make a tremendous difference in their lives, and others like them.” Learn how to [join the fight](#) against hunger in America.

Help Veteran with Toxic Exposure

The Senate Veterans Affairs Committee (SVAC) approved the "Comprehensive and Overdue Support for Troops (COST) of War Act." This legislation, sponsored by SVAC Chairman Jon Tester, would allow for the first time all veterans who were at risk of toxic exposure, including 3.5 million Iraq and Afghanistan veterans, to obtain immediate and lifelong access to health care from the Department of Veterans Affairs (VA)-one of the largest expansions of health care eligibility in the VA's history. The bill would provide presumptive care for 11 conditions for veterans sickened by exposure to burn pits and other toxins. It would also establish a new science-based and veteran-focused process for the establishment of new presumptive conditions and would provide benefits to thousands of toxic exposure veterans who have been long-ignored or forgotten, including Agent Orange veterans suffering from hypertension.

The still unnumbered bill now goes to the full Senate for further consideration. Please use the Action Center to ask your Senators to support this important legislation [HERE](#).

Recommendation to Consider New Presumptive Conditions

Based on recent studies related to particulate matter exposures, VA Secretary McDonough is initiating rulemaking to consider adding new presumptive regulations for respiratory conditions. The new presumptive conditions would be for veterans who served in the Southwest Asia theater of operations during the Persian Gulf War and/or after Sept. 11, 2001, or in Afghanistan and Uzbekistan during the Persian Gulf War. Please note, VA has NOT created new presumptive conditions, however, we encourage affected veterans to [contact their VFW Department Service Officer](#) with any questions or concerns they may have or if they may be interested in filing a claim.

3 Agent Orange Presumptives Added

The Department of Veterans Affairs (VA) has announced three conditions will be added to the list of those presumptively associated with exposure to Agent Orange herbicide. Those conditions are bladder cancer, hypothyroidism and Parkinsonism. This expansion is a result of FRA-supported legislation that was added to the FY 2021 National Defense Authorization Act (P.L.116-283). Vietnam War era veterans and their survivors, who previously filed and were denied benefits for one of these three new presumptive conditions, will have their cases automatically reviewed **without the need to refile a claim.**

The Patriot Purge is Underway in The US Armed Forces

By Capt Joseph R. John

On this Armed Forces Day, to protect every member of the US Armed Forces serving the Republic, we are exposing the very dangerous initiative hatched by Biden/Harris/Obama to the American Citizens, that is destroying the “Combat Effectiveness” of the US Armed Forces. The

Secretary of Defense Lloyd Austin hired a Radical DOD Extremist Czar, Bishop Garrison, to search for and oust Extremists from the US Armed Forces. Bishop Garrison's, official title is The Senior Advisor to The Secretary of Defense on Human Capital and Diversity, Equity, and Inclusion. Garrison will oversee the implementation of immediate actions required to combat Patriot Extremism, as well as the development of the mid-term and long-term recommendations for the continued engagement to combat Patriot Extremism.

Garrison is a 1619 Project racist activist who believes in and provides support for the racist principles of 1619 Project, which is based on outright lies, that never actually occurred in history. He is implementing a very sinister and extremely dangerous initiative in the US Armed Forces, by force feeding Critical Race Theory into the entire US Armed Forces which is degrading the "Combat Effectiveness" and "Unit Cohesion" of the US military. The Obama screened inept woke Superintendents at West Point and the US Naval Academy have been inserting Critical Race Theory, politics, and racism into the curriculum of those Service Academies, to the detriment of "Unit Cohesion" and "Comradery" in the Long Gray Line and in The Brigade of Midshipmen.

Bishop Garrison has repeatedly stated that anyone in the US Armed Forces who supported President Donald J. Trump is a racist and must be purged from the US military. Garrison does not see Army Green, instead he only sees “race”, unlike every recruit trained in the US Army over the last 80 years who have been taught that there is only one color in the US Army, Army Green. Garrison is only searching for MAGA Red and is determined to get all of those supporters of President Trump out of the US military. That is flagrant violation of the Civil Rights of every member of the US Armed Forces, but Secretary Austin has given Garrison free range to hunt out and eliminate career opportunities for any Patriot supporter of President Trump.

Garrison has been tasked with reviewing, updating, and redefining, what “Extremism” is, but that does not include members of ANTIFA and the Marxist Black Live Matter Domestic Terrorists groups who are Extremists. They have put over 8,000 Police Officers in hospitals, torched thousands of police cruisers, destroyed and torched over \$2 billion in infrastructure in over 200 Sanctuary Cities, while being responsible for the death of over 300 Americans, over the last 17 months.

Garrison and SecDef Austin say Extremism is rampant and a major problem in the US Armed Forces, that it is sinister and dangerous, and that every effort is underway to find and oust Patriot Extremists from the US Armed Forces. Garrison is the Director of a Commission of Extremism Study which is responsible for rooting out extremist behavior within the US Armed Forces, to gain greater fidelity on the scope of the Patriot Extremists in the US Armed Forces. Garrison chairs a weekly Pentagon Countering Extremism Working Group that have been changing the US Armed Forces.

1. One of Garrison's first acts was to empower Veterans to spy on, and to report on fellow Veterans who they consider Extremists, and to report on potential contacts who are in Extremist groups.
2. Garrison is changing the method of screening and recruiting personnel into the US Armed Forces to exclude Patriot Extremists from being recruited.
3. Garrison is standardizing a screening questionnaire for every branch of the US Armed Forces to update and standardize a screening questionnaire, to solicit specific information about current or previous extremist behavior by an individual member of the US Armed Forces.

An example of purging a Patriot from the US Armed Forces is the case of Lt Col Matthew Lohmeier, who graduated from US Air Force Academy in 2006, and was a former instructor and fighter pilot for 14 years. In October 2020, he was transferred into the Space Force, and was assigned as the Commander of the 11th Space Warning Squadron at Buckley Air Force Base; the unit is tasked with detecting ballistic missile launches. He previously self-published a book titled "Irresistible Revolution: Marxism's Goal of Conquest & the Unmaking of the American Military", which claims Marxist ideologies are becoming prevalent in the US military.

In a podcast, he spoke about U.S. institutions, including universities, media and federal agencies including the military, that he said were increasingly adopting leftist practices. He said these practices -- such as diversity and inclusion training -- are the systemic causes for the divisive climate across America today. For expressing his "Freedom of Speech", Lt Col Lohmeier was relieved from his post on Friday by Lt. Gen. Stephen Whiting, the head of Space Operations Command, because of comments he made during that podcast promoting his new book.

By clicking on the below listed link you will be able

to hear a great deal more about the despicable Patriot Purge underway in the US Armed Forces.

<https://www.youtube.com/watch?v=1xcUU4i3Okc>

Garrison has been directed to initiate the below listed Lines of Effort (LOE) with the help of internal and “external—non-military” Subject Matter Experts as follows:

- Line of Effort 1: Altering the Military Justice and Policy. This LOE will focus on the role of military justice and policy. It will evaluate whether seeking to amend the Uniformed Code of Military Justice (UCMJ) or amending related department policy is appropriate to address Extremism. This LOE will determine if regulations are sufficient or should be expanded to authorize it to purge and oust Extremists from the US Armed Forces.
- Line of Effort 2: Support and Oversight of Insider Threat Program. This LOE will determine how the Department should facilitate better information collection and sharing among Service Insider Threat Programs, law enforcement organizations, security organizations, and commanders and supervisors. This group will work to strengthen Insider Threat Programs and the Direct Awareness Campaign with the goal of promoting the use of the

Insider Threat programs to report concerning behaviors for both military and civilian personnel.

- Line of Effort 3: Screening Capability. This LOE will discuss the Department's pursuit of scalable and cost-effective capabilities to screen publicly available electronic information in accessions and continuous vetting for national security positions. The LOE will make recommendations on further development of such capabilities and incorporating machine learning and natural language processing into social media screening platforms. This LOE will also endeavor to develop policy to expand user activity monitoring of both Secret Internet Protocol (SIPR) and Non-Classified Internet Protocol (NIPR) systems.

- Line of Effort 4: Education and Training. This LOE will utilize the current extremist and Insider Threat training review being conducted by Office of the Under Secretary of Defense for Public Relations and Office of the Under Secretary of Defense Legal Services Agency and examine existing training and make recommendations and updates to change the training material for different leadership levels and separate and discrete targeted audiences, as necessary. It will use lessons learned from the Stand Down to enhance current reviews of training

and education. This LOE will also ensure training addresses issues raised by commanders and supervisors on “gray areas” such as reading, following, and liking extremist material and content in social media forums and platforms, to target those service members who may be in extremist groups, to eliminate those Extremists.

In fact, this is a racist quest by Bishop Garrison, which was started by Obama in 2008. It is being driven forward by the Marxists, Socialists and the Biden/Harris/ Obama administration, to purge of Patriotic Americans and destroy the “Combat Effectiveness and “Unit Cohesiveness” of the US Armed Forces while eliminating any support for the founding principles that The Founding Fathers provided to their posterities in 1776, and substituting that with the racist principles of the 1619 Project.

The Defense POW/MIA Accounting Agency announced three burial updates for service members who have been missing and unaccounted-for from World War II and Korea. Returning home for burial with full military honors are:

Army Pfc. Bill F. Hobbs, 20, of South Coffeyville, Oklahoma, was a member of Heavy Mortar Company, 31st Infantry Regiment, 7th Infantry Division. He was reported missing in action on Nov. 30, 1950, when his unit was attacked by enemy forces near the Chosin Reservoir, North Korea. Following the battle, his remains could not be

recovered. Hobbs will be buried June 26, 2021, in Coffeyville, Kansas. [Read about Hobbs.](#)

Navy Electrician's Mate 3rd Class Leslie P.

Delles, 21, of St. Charles, Illinois, was assigned to the battleship USS Oklahoma, which was moored at Ford Island, Pearl Harbor, when the ship was attacked by Japanese aircraft on Dec. 7, 1941. The USS Oklahoma sustained multiple torpedo hits, which caused it to quickly capsize. The attack on the ship resulted in the deaths of 429 crewmen, including Delles. He will be buried on Oct. 23, 2021, in Sutter Creek, California. [Read about Delles.](#)

Navy Seaman 1st Class Wilbur F. Ballance, 20,

of Paw Paw, Michigan, was assigned to the battleship USS Oklahoma, which was moored at Ford Island, Pearl Harbor, when the ship was attacked by Japanese aircraft on Dec. 7, 1941. The USS Oklahoma sustained multiple torpedo hits, which caused it to quickly capsize. The attack on the ship resulted in the deaths of 429 crewmen, including Ballance. He will be buried on Dec. 3, 2021, at the National Memorial Cemetery of the Pacific. [Read about Ballance.](#)
