Open Letter Regarding Securing our Borders-11-04-14:

Message sent to the following recipients:

Senator Boxer
Senator Feinstein
Representative Calvert
President Obama

Message text follows:

Dear Congressman Calvert:

Maybe you can answer me why?

Why can't we secure our borders? It wasn't long ago a bill was passed in both the House and Senate to construct a wall, and then all the funds to build it vanished.

What we ended up with was 500 miles of chain link fence which wouldn't stop anyone who is determined.

If Congress can find money to send to Africa and Haiti, we surely can find the funds to secure our border.

And to me a secured border would be:

Build a 100 ft high x 3 ft thick wall the entire length of the Mexican and US Borders with gun turrets every 1,000 ft manned by National Guard and Veterans armed to the hilt with instructions, fire ONE shot over their head as a warning.

Fail to heed the warning SHOOT ON SIGHT. I guarantee your word will spread very quickly and they will stop trying to invade our country!

You may think this is extreme, well personally I feel our situation is needing an extreme move to protect our country and our borders.

We need to stop slapping in the face those who come to the United States legally, taken the time to apply, meet all the criteria, and get visa's and passports and green cards the legal way.

I honestly can't wait till Senators Boxer and Feinstein are up for re-election, I'm just very sorry it wasn't this year.

Sincerely,

Jim Davis
