On March 21, we directed a sample of our Technical 2,4,5-T Acid to subject account. In talking with Ken Hanson on April 4, he advised that they would not be in a market for our material. Apparently, they feel that our material could conceivably re-create a chlor-acne problem at Midland and, as such, would not entertain the purchase of our present production.

J. C. KELLY

cc. Mr. F. R. Kennedy - Newark  
Mr. R. A. Guidi

*There was a lot of TAT  
in the TAT.  
Our Tech Staff at Newark is  
short on men, cannot be in  
a replacement. First man  
interviewed to be sent to Tokyo City.
