The DVA put out their Compensation and Pension Bulletin for January 2010 and it has the following information that may affect some of you:

**Policy (211)**

**Information on Vietnam Naval Operations**

Compensation and Pension (C&P) Service has initiated a program to collect data on Vietnam naval operations for the purpose of providing regional offices with information to assist with development in *Haas* related disability claims based on herbicide exposure from Navy Veterans. To date, we have received verification from various sources showing that a number of offshore “blue water” naval vessels conducted operations on the inland “brown water” rivers and delta areas of Vietnam. We have also identified certain vessel types that operated primarily or exclusively on the inland waterways. The ships and dates of inland waterway service are listed below. If a Veteran’s service aboard one of these ships can be confirmed through military records during the time frames specified, then exposure to herbicide agents can be presumed without further development.

All vessels of Inshore Fire Support [IFS] Division 93 during their entire Vietnam tour

USS Carronade (IFS 1)

USS Clarion River (LSMR 409) [Landing Ship, Medium, Rocket]

USS Francis River (LSMR 525)

USS White River (LSMR 536)

All vessels with the designation LST [Landing Ship, Tank] during their entire tour  
[WWII ships converted to transport supplies on rivers and serve as barracks for brown water Mobile Riverine Forces]

All vessels with the designation LCVP [Landing Craft, Vehicle, Personnel] during their entire tour

All vessels with the designation PCF [Patrol Craft, Fast] during their entire tour  
[Also called Swift Boats, operating for enemy interdiction on close coastal waters]

All vessels with the designation PBR [Patrol Boat, River] during their entire tour  
[Also called River Patrol Boats as part of the Mobile Riverine Forces operating on inland waterways and featured in the Vietnam film “Apocalypse Now”]

USS Ingersoll (DD-652) [Destroyer] [Operated on Saigon River, October 24-25, 1965]

USS Mansfield (DD-728) [Destroyer] [Operated on Saigon River August 8-19, 1967 and December 21-24, 1968]

USS Richard E. Kraus (DD-849) [Destroyer] [Operated on coastal inlet north of Da Nang, June 2-5, 1966, protecting Marines holding a bridge]

USS Basilone (DD-824) [Destroyer] [Operated on Saigon River, May 24-25, 1966]

USS Hamner (DD-718) [Destroyer] [Operated on Song Lon Tao and Long Song Tao Rivers, August 15-September 1, 1966]

USS Conway (DD-507) [Destroyer] [Operated on Saigon River, early August 1966]  
USS Fiske (DD-842) [Destroyer] [Operated on Mekong River, June 16-21, 1966]

USS Black (DD-666) [Destroyer] [Operated on Saigon River, July 13-19, 1966]

USS Providence (CLG-6) [Cruiser, Light, Guided Missile] [Operated on Saigon River 3 days during January 1964]

USS Mahan (DLG-11) [Guided Missile Frigate] [Operated on Saigon River October 24-28, 1964]

USS Okanogan (APA-220) [Attack Transport] [Operated on Saigon River July 22-23, 29-30, 1968 and August 5-6, 1968]

USS Niagara Falls (AFS-3) [Combat Stores Ship] [Unloaded supplies on Saigon River and Cam Rahn Bay, April 22-25, 1968]

-----  
If you served on any of these ships during the periods specified contact your Regional Office and direct their attention to there own Compensation & Pension Bulletin for January of 2010. If you are using a Veterans Service Officer as a representative, have him drive both of you to the Regional Office and take a printout of this notice.

There is no reason for the DVA to hold the claims of anyone who served on the above listed vessels during the indicated time frames.

I will note, three of the Destroyers are from DesRon 12, home ported in Newport, RI, and made the trip around the world in 1966 to provide combat support to forces fighting the NVA and the VC in Vietnam. USS Basilone, USS Richard E. Kraus, and USS Fiske are the three. We have members who served on Basilone and Fiske.

## Policy (211)

### Additional Information on Vietnam Naval Operations

The January 2010 Compensation and Pension (C&P) Service Bulletin provided a list of naval vessels operating in the waters of Vietnam. This list was intended to provide regional offices (ROs) with information to assist with development of herbicide exposure related disability claims from Navy Veterans. The list included vessels that operated primarily or exclusively on the inland "brown water" waterways of Vietnam as well as large "blue water" vessels that operated temporarily on the inland waterways or docked to the shore. The vessels listed below are now added to the original list. If evidence places a Veteran on one of these vessels at the time of inland waterway operations, the Veteran is eligible for the presumption of herbicide exposure. In the case of a ship with confirmed docking to the shore, the Veteran must also provide a statement that he went ashore to be eligible for the presumption.

### **Vessels that operated primarily or exclusively on the inland waterways**

## **Navy and Coast Guard Ships Associated with Service in Vietnam and Exposure to Herbicide Agents**

This ships list is intended to provide VA regional offices with a resource for determining whether a particular US Navy or Coast Guard Veteran of the Vietnam era is eligible for the presumption of Agent Orange herbicide exposure based on operations of the Veteran's ship.

According to 38 CFR § 3.307(a)(6)(iii), the presumption of herbicide exposure requires that the Veteran's service involved "duty or visitation in the Republic of Vietnam." For those Veterans who served aboard ships operating primarily or temporarily on the inland waterways of Vietnam, their service involved "duty" in Vietnam. In such cases, the evidence must show that the ship was on the inland waterways and the Veteran was aboard at that time. For those Veterans who served aboard ships that docked and the Veteran went ashore, or served aboard ships that did not dock but the Veteran went ashore, their service involved "visitation" in Vietnam. In cases involving docking, the evidence must show that the Veteran was aboard at the time of docking and the Veteran must provide a statement of personally going ashore. In cases where shore docking did not occur, the evidence must show that the ship operated in Vietnam's close coastal waters for extended periods, that members of the crew went ashore, or that smaller vessels from the ship went ashore regularly with supplies or personnel. In these cases, the Veteran must also provide a statement of personally going ashore.

This list includes three categories of ships:

- Ships operating primarily or exclusively on Vietnam's inland waterways
- Ships operating temporarily on Vietnam's inland waterways or docking to the shore
- Ships operating on Vietnam's close coastal waters for extended periods with evidence that crew members went ashore or that smaller vessels from the ship went ashore regularly with supplies or personnel

This list is not complete. Therefore, the presumption of herbicide exposure should not be denied solely because the Veteran's ship is not on this list. Additionally, when regional office personnel obtain evidence showing that a ship fits into any of these categories, the evidence should be forwarded to the Compensation and Pension Service Agent Orange Mailbox [VAVBAWAS/CO/211/AGENTORANGE] so that the ship can be added to the listing.

THE SECRETARY OF THE NAVY  
WASHINGTON, D.C. 20350-1000

June 17, 2010

The Honorable Daniel K. Akaka  
Chairman, Committee on Veterans Affairs  
United States Senate  
Washington, DC 20510-1103

Dear Mr. Chairman:

Thank you for your memorandum of April 28, 2010, requesting the Navy prepare a list of Navy ships that served off the coast of Vietnam from 1962 to 1975.

Enclosed you will find a list of 713 ships that earned either the Vietnam Service Medal or the Armed Forces Expeditionary Medal for Vietnam service from 1962 onward compiled by the Naval History and Heritage Command. The Navy and Marine Corps Awards Manual (SECNAVINST 1650.1H) defines the area in which a ship must have operated during this time period to be eligible for these awards as follows: "water areas from a point on the east coast of Vietnam at the border of Vietnam with China southeastward to 21N, 108-15E; thence southward to 18N, 108-15E; thence southeastward to 17-30N, 111E; thence southward to 11N, 111E; thence southwestward to 7N, 105E; thence westward to 7N, 103E; thence northward to 9-30N, 103E; thence northeastward to 10-15N, 104-27E; thence northward to a point on the west coast of Vietnam at the border of Vietnam with Cambodia." This geographic area is depicted on the enclosed map. The enclosed list also includes ships that received an Armed Forces Expeditionary Medal for participation in the evacuation of Cambodia (Operation EAGLE PULL), the evacuation of Vietnam (Operation FREQUENT WIND), and the Mayaguez Operation. As no definition of the term "off the coast of Vietnam" was provided, this represents the most logical estimation of that phrase we are able to define.

Narrowing the list down to those ships that operated within a closer proximity to the Vietnam mainland requires designating precise latitude and longitude boundaries for the area considered to be off the coast of Vietnam. If those boundaries are established, the deck logs for the ships on the enclosed list might be researched to determine which served within the area defined. The deck logs for Navy ships from 1962 to 1975 are no longer in Navy custody. In accordance with Title 44 requirements, we have transferred those records to the National Archives and Records Administration (NARA). Should the Committee on Veterans Affairs wish to pursue a more in depth study of this matter, it would need to contact that agency.

JUN 21 2010

2010 JUN 21 AM 11:58  
SENATOR DANIEL K. AKAKA  
WASHINGTON, D.C.

Also of note in this matter, NARA has built a database of Navy ships that conducted naval gunfire support missions off Vietnam between 1966 and 1973. The Combat Naval Gunfire Support (CONGA) database is accessible online at the NARA website:

As always, if I can be of any further assistance, please let me know.

Sincerely,

A handwritten signature in blue ink, appearing to read "Ray Mabus", written over the printed name.

## **VA Adds Ships to Agent Orange Exposure List**

This week the VA has added the below named ships to the already existing list for Navy and Coast Guard ships and vessels that are presumed to have been exposed to Agent Orange. If you served on any of these mentioned ships and you have had a claim denied, you should reapply citing the VA list as the source for your reapplication. NAUS is told the VA is already working on a third list that will have more ships listed. If you have a claim and evidence the ship you served on was in Vietnamese waters and/or actually tied up to a dock there, make sure you include that with your claim.
