September 14, 2009

To the Veterans Administration:

For: Sgt Ralph A. Stanton
601 E Swenson
Savannah, Mo 64485

816-262-0097

rstanton@stjoelive.com

My name is Msgt LeRoy Glenn Foster, USAF, Retired. I am writing this letter to testify in support of Ralph A. Stanton's exposure to Agent Orange herbicides which I prepared, mixed and sprayed on Andersen AFB, Guam and all of the off base fuels facilities, cross country pipelines that spanned the island to the Naval Fuel Supply Depot underground storage tanks. I sprayed these herbicides in, on, and around all the places Sgt. Stanton had to work.

I prepared, mixed and sprayed these herbicides to include Agent Orange and Agent Blue herbicides which were packaged in 55 gallon drum containers identified with colored bands and 50 lb dry chemical bags with Monsanto on the bags. I was an AIC and a Sgt during the time frame of 1969 and 1970 and 1971. I worked in the 43rd Supply Squadron Fuels Division and was assigned to on and off base fuels facility operations. I used a five ton blue tractor truck and a yellow 750 gallon tank trailer which was an old MK1 oil and Adi trailer to service C124 Globemaster Aircraft which was converted into a herbicide spraying trailer.

I often would have to spray the entire pipe lines, hydrant pump stations on the flight line, the Quonset huts storing the packaged oil for the B52 bombers, the fuel valve pits, the security fences surrounding the flight line, the fuel storage facilities at Andy I, Andy II, the Liquid Oxygen bldg, the Fuel operations office, the truck refueling hardstands, the refueling fleet checkout area, all of the off base fuel storage facilities at Potts tank farm, Naval Air Station Fuel Booster pump station, Tumon Tank Farm and the entire Cross country pipeline.

I also sprayed at the Yigo and Dededo Packaged Oil warehouse Quonset hut where I operated forklifts to load and unload packaged oil for the B52 bombers jet engine oil. I would work many long hours but sprayed a lot there because of the jungle over growth. Sgt Stanton worked alongside me during the two years we were stationed there together. He often was rebuilding valves, pumps, filters etc. He also had to maintain corrosion control on those fuels systems and was always getting the wind blown spray on him. He would complain to me to keep that shit away from him as it would turn a chalky white on immediate contact.

He and I developed sterility there but never said anything to each other as we both probably thought that was much too personal to talk about. He and I have many serious diseases now and we both probably will not live much longer past 65 if we reach it. I have many friends now that have died in their forties and fifties from these herbicides.

I know that the US Air Force and the Department of Defense know the truth about these herbicides. The denial must end. I am asking our government to be honest now about these Agent Orange herbicides.

I swear to God that all of the above is true and correct.

Signed,

Msgt Leroy G Foster, USAF, Ret.
